

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

10 minutes to prepare

1 hour to collaborate

2-8 people recommended

Share template feedback

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

→ 10 minutes

Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

Learn how to use the facilitation tools Use the Facilitation Superpowers to run a happy and productive session.

problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

ரு 5 minutes

PROBLEM

A major challenge involved is to provide doctors with efficient initiative accurate and safe means of interaction without affecting the quality of their work .However ,the use of computer key-boards and mouse by doctors and nurses in intensive care units is a common method for spreading infections .we suggest the use of hand gesture in medical field as an alternative to existing interface technique offering the major advantages of sterility.

Key rules of brainstorming To run an smooth and productive session

Stay in topic.

Defer judgment.

Listen to others.

Go for volume.

Encourage wild ideas.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

Group ideas

20 minutes

response

Take turns sharing your ideas while clustering similar or related notes as you go. Once all

sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is

bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
